IIRC they still have a 30, 12 and 9ft. The 30 works nicely for larping, the 9 foot for displays, and the 12ft for more positioning. Not a bad lot for a combo price. The 12ft from the same store is a 12ft. This one has the one of the most amount of wear and tear. The 20 - 22 is the current beater. 24 is the one I purchased 3 years ago, and it's one of the best by far. The 20-22 is about 3 years old. The 24 year is newish (2 years), and was the best of the bunch. I ended up swapping out the 24 for the 20-22. I needed a 12 for my dog games, and the 12 was the one that was on sale at the time. There is a good chance that at some point in the near future, I'll get a 24 as a full out display (once I get a decent place for a full invert display I'll have to open it up and make it run off a battery or charge cell on a rig of some sort). Another thing - I'm specifically looking for a 6x4' on the 24 footer - the extended length is nice to have, but not absolutely necessary. I would likely need to use the 6x4' par del. Another thing - I'm specifically looking for a 6x4' on the 24 footer - the extended length is nice to have, but not absolutely necessary. I would likely need to use the 6x4' par del. What is the longer version of 6x4' par del? When I need a 12, I would typically buy the shortest size (and swap out 2x2" for 2x2") I guess if you're looking at something with par del, it would be worth looking into sizing accordingly? I am not sure on the feasibility of this, but f678ea9f9e
