### About This Content

Packed with both character and atmosphere, China Clay for Export is set in one of the most picturesque counties of England and offers a very intensive and interesting railway experience.

The extraction of China Clay in Cornwall dates back to the 18th Century and remains a valuable resource to this day. The chosen route encompasses parts of three different railway lines.

Par to Bugle is a section of the historic former Cornwall Mineral Railway, which has become known locally as the 'Atlantic coast line' - and terminates in Newquay. The Great Western Mainline between Lostwithiel and Par carries London to Penzance, via Bristol, passenger services as well as a wealth of china clay traffic.

One of the most scenic freight only lines in Britain has to be the journey from Lostwithiel to Fowey Docks (Carne Point). Clay from many different parts of Cornwall and Devon is carried by rail to Fowey where it is loaded on to waiting ships from all parts of the globe.

This is your chance to sign-on at St Blazey Depot; jump aboard your locomotive for the day and head off to Rocks Dryers to pick up a train of china clay. Can you manage to get this heavy train to Carne Point and return with empties whilst observing all speed limits, along the steep gradients and twisting lines?

The China Clay for Export route has been significantly upgraded by Creative Rail for its release on Steam, including

Got in early access. It seems like it has great potential. Really looking forward to updates and expanded gameplay.. Check out my Steam Curator page, "Minorthreat Gaming Reviews." I have the most organized and extensive genre lists on Steam! Be sure to "FOLLOW" for more of my recommendations: <http://store.steampowered.com/curator/31339849-Minorthreat-Gaming-Reviews/?appid=257170>

The Short of it: Think side-scrolling shooter like the classic R-Type, but with an odd "trying to utilize aspects of what makes Cuphead great" that results in unintended hilariousness. A strange, but OK experience.  
. Very good in what it does! I usually survive only 20 seconds, but it is so easy to take another try. Music is superb!. It's like carmageddon with no sense of humour of fun gameplay.

But if you see it for almost nothing, then you may as well buy it for a dumb game about running over zombies.. 63p overpriced. Its not fun at all.

I did not respect my money :/. Despite the lack of some animations (probably due to budget), I did have fun with this game and enjoyed it. I do recommend it for those that like point and click adventure games. Great short experience for the price of: FREE. Also a really good intro to VR for showing friends.. Not a bad game, graphics are a bit dated but it has a decent storyline. Worth picking up if it is on sale.. Yeah, it's pretty much the best LEGO game... especially because the characters don't freakin' talk.. Great, hard and nostalgic game!!!. horrible, nothing else to describe it. This was a weird one. Buy it if its on sale. Otherwise maybe give this one a pass.. Funny game. Easy gameplay but hard objectives. Played about 10hrs - it's fun and easy to play.
